

HR Webinar/Seminar Programme 2023

We look forward to welcoming you to our 2023 HR events.

Designed to support your continued development, these practical, informal and informative sessions are delivered by our employment and immigration law experts – drawing on our considerable legal expertise and years of experience.

The majority of our events will be held virtually to give as many as possible, within our HR community, the opportunity to attend. Nearer the time, we will confirm details for each event. For now, you just need to place a reminder in your diary.

All our events are complimentary except for the annual mock employment tribunal. There will be the opportunity to put your questions to the team.

We would be delighted if you are able to join us and look forward to hosting you.
